

Deeper insight – Maximum transparency

Rack- and
flow material
boxes

The greater the number of small parts you need for your daily work and the larger your range or inventory of unfinished products is, the more important it is to systematically and clearly store them in containers, in which you can always gauge the contents at a glance.

We therefore also offer the closed Euro container with cut-out side and viewing opening on the front, and of course the classic storage boxes with open fronts also form part of our product range.

The box-shaped racks and material flow boxes have an open front and can be fitted with sophisticated accessories for increased efficiency, for example with a transparent viewing panel, lateral and longitudinal dividers or labels.

Crystal clear tipping boxes offer maximum transparency.

EURO STORAGE CONTAINERS WITH OPEN FRONTS

READY-TO-HAND SYSTEM

Providing you with easy access to your products, tools, textiles, or bits and bobs!
Sturdy plastic containers with cut-out side for easy loading and unloading, even when stacked.

All versions are available with a cut-out opening in any size and shape
(also available on the long sides)

Particularly in the case of small parts or delicate contents, a transparent panel made of acrylic glass offers perfect protection to stop them falling out, getting dusty and suffering damage.

However, you can still see at a glance what is in which container (and how much). If required, the protective panel can be removed in one simple step.

DRAWER CONTAINER COMPLETE SYSTEM

ALWAYS ON HAND

Mobile, practical, robust and great value for money: thanks to the system's high loading capacity, the flexible drawer containers with their simple modular construction hold plenty of parts, sorted

neatly and always within easy reach. The drawers have stops to prevent them from sliding out and run very smoothly, even when full. The complete system is made up of a heavy-duty transport

trolley with four castors, a drawer container, two drawer holders with twelve insertion grooves and a set of six drawers.

- Total loading capacity: 70 kg
- 12 insertion grooves for drawers
- 6 drawers (2 x W172-t/2 x W84-t/ 2 x W24-t)
- Stops prevent the drawers from sliding out

TIPPING BOX

A CLEAR VIEW OF EVERYTHING

With this system you will always have a clear view of everything: the transparent tipping boxes make it easy to see whats inside. To fill or empty the boxes, they just have to be tilt forward but they will still remain save in their fixing module. With just one hand movement more you can also take the containers out of the fixing module - so you can be completely flexible.

- Made of transparent, scratchproof plastic
- Individual stackable or usable in wall mounting system
